

NOTICE OF A SITE VISIT

To be conducted on: February 17, 2014

Members of The Town Board of Silver Creek will conduct a site visit of a FAST wastewater treatment system that is operational and located in Lake Elmo, Minnesota on Monday, February 17, 2014 with representatives from Wenck Engineering, Inc. This site visit is of a proposed wastewater filtering system that could be constructed as the Stewart River Subordinate Sewer District wastewater project is implemented beginning in 2015.

The purpose of this visit is to evaluate an operational FAST wastewater filtering system. No discussions will be held outside of this system evaluation.

Frederick R. Whitney, Clerk
Town of Silver Creek
